

Inside Western Europe's ITAD & Electronics Lifecycle Sectors

Published: 5 July 2026 | Author: David Daoud

Scope and Method

This report synthesizes Compliance Standards' four country-level Euro Reports - France, Belgium, the Netherlands, and Germany - into a single regional investment profile. It does not introduce new primary research; figures are drawn from discussions and interviews conducted by the author during a trip to the region in June 2026, as well as data from the underlying national producer-responsibility bodies, government statistics agencies, and company disclosures cited in each country report, and are presented here at the level of detail relevant to a capital-allocation decision rather than a market-structure study. Readers seeking country-specific sourcing, caveats, and data vintage should consult the underlying Euro Reports.
