1. Summary

Sandisk reported fiscal first-quarter 2027 results on October 29, 2026, for the quarter ended October 2, 2026, included in the tracker's calendar Q3 2026 cohort. Revenue reached 11.03 billion dollars, up 23% sequentially and above the top of the 10.3 to 10.8 billion dollar range the company guided in August. Data center revenue rose 61% in the quarter to 4.80 billion dollars, or 43.5% of total revenue. Edge, which covers PCs, smartphones, automotive and other devices, remained the largest end market at 5.83 billion dollars. Consumer revenue fell 29% sequentially to 397 million dollars, a decline management attributed to the market adjusting to higher pricing.
