Brief: Korea Zinc Q3 2026 | Onsan Copper Expansion Means More Demand for U.S. Circuit-Board Scrap

Published: 4 November 2026 | Author: David Daoud

Korea Zinc operates the Onsan smelting complex in Ulsan, South Korea, where it produces zinc, lead, copper and precious metals. Its U.S. subsidiary PedalPoint includes evTerra, which collects and preprocesses electronics scrap, and MDSi, which provides network equipment and IT asset disposition services.
